Fully fund / support CT teacher's Health (funding)

To Whom it May Concern in the Ct State Legislature:

I call upon you, one & all, to reject the the Governor's unreasonable proposal for the State to discontinue its mandated obligation to fund CT teachers' health care.

This Draconian proposal is consistent with prior proposals "taking out" problems on State teachers from our Governor, who has exhibited consistent disdain for those of us who commit our lives to helping children.

It is crucial that the legislative body of our state "check" this unfair, unreasonable proposal by voting in favor of continued support for CT teachers.

Respectfully submitted,
David Deitch
